

NEWS RELEASE

CCS CORPORATION ACQUIRES MUD KING DRILLING FLUIDS

Calgary, December 5, 2008 – Effective December 5, 2008, CCS Corporation purchased Mud King Drilling Fluids. Mud King will join CCS' ProDrill Fluid Technologies division under the ProDrill brand. Mud King is a full service drilling fluid supplier. Since 1993, Mud King has been actively providing drilling fluid sales and services to the oil and gas drilling industry across Western Canada.

"This partnership will allow ProDrill to continue servicing our customers at the high levels they have come to expect while providing a valuable opportunity to explore new growth and innovation in the drilling industry," said Dave King, General Manager of ProDrill Fluid Technologies and former owner of Mud King.

"We are pleased to welcome Mud King to the CCS family," said Dave Werklund, President and CEO of CCS Corporation. "CCS and ProDrill have a strong reputation for customer service and are recognized as industry leaders in the waste management and drilling fluids industries. Our complementary business operations and similar cultures made this acquisition a natural fit."

Mud King currently operates out of Calgary, Alberta.

About ProDrill

ProDrill Fluid Technologies operates as a part of the CCS Midstream Services division of CCS Corporation. ProDrill sells and services drilling fluid systems and provides value-added services such as inhibitive mud systems designed for environmental compliance, and a drilling waste management/monitoring program. The combination of ProDrill and CCS Midstream Services has enabled ProDrill to offer complete drilling-fluid management along with disposal of drill cuttings at CCS Engineered Landfills and fluids at CCS Treatment, Recovery and Disposal facilities.

Now with Mud King joining ProDrill, our service offerings have expanded to include an innovative mix of drilling fluids fluid designed exclusively for the heavy oil producing regions of Western Canada.

About CCS Corporation

CCS Corporation is a recognized industry leader providing integrated, environmentally responsible solutions in Canada and the U.S. Headquartered in Calgary, AB, CCS has almost 3,000 employees and provides a diverse number of services across four divisions. CCS Midstream Services provides oilfield waste treatment, recovery and disposal (TRD) through a network of facilities across Western Canada and in the United States. This includes TRD facilities, engineered landfills and disposal caverns. CCS Energy Marketing provides crude oil and condensate marketing services. HAZCO Environmental Services offers integrated remediation, waste management, NORM management and

decommissioning solutions throughout Canada. Concord Well Servicing manages well completions, workovers and abandonments with a fleet of 143 service rigs. Additional integrated services include regulatory compliance expertise, inactive well management, well and pipeline abandonments, oilfield equipment rental, metals recycling and geotechnical and environmental drilling.
