CCS CORPORATION OPENS NEW TREATMENT RECOVERY AND DISPOSAL FACILITY IN PEACE RIVER

Calgary, June 4, 2008 – CCS Corporation will be hosting an open house, Thursday, June 5, from 11:30am – 1:30 pm. This exciting event, which is open to the public, will take place at the Peace River plant site, located 13 km Northeast of Peace River off of Highway 966. Attendees will enjoy guided tours of the facility, a meet and greet and prizes.

“Expanding our services in the Peace River area allows us to continue safe, environmentally responsible services to our customers,” say David Werklund, President of CCS Corporation.

CCS is dedicated to safeguarding the environment by building and operating the most technologically advanced, efficient oilfield waste management systems. By using a combination of centrifuges and a system developed by CCS, called Gravity Compression Systems’ (GCS), which combined with our receiving system, means fast unloading and the most cost-effective treatment, recovery and disposal service in the industry.

About CCS Corporation

CCS Corporation is a recognized industry leader providing integrated and environmentally responsible services to upstream and downstream oil and gas companies in Canada and the U.S. Headquartered in Calgary, Alberta, CCS has almost 3,000 employees and provides a diverse number of services across four divisions. CCS Midstream Services provides oilfield waste treatment, recovery and disposal through a network of facilities across western Canada and in the United States. CCS Energy Marketing provides crude oil and condensate marketing services. HAZCO Environmental Services offers integrated remediation, waste management and decommissioning solutions. Concord Well Servicing manages well completions, workovers and abandonments with a fleet of 143 rigs.
