

NEWS RELEASE

HAZCO ENVIRONMENTAL SERVICES ACQUIRES PENINSULA WASTE WATER SERVICES

Victoria, October 6, 2008 – Effective September 15, 2008, HAZCO Environmental Services, a division of CCS Corporation, completed the acquisition of Peninsula Waste Water Services (PWWS). PWWS services the marine and environmental industry providing waste management services to cruise lines, ship yards, and other marine related businesses in British Columbia.

“This partnership will allow PWWS to continue servicing our customers at the high levels they have come to expect while providing a valuable opportunity to explore new growth and innovation in the marine industry,” said Peter Lehmann, Senior Marine Services Manager of Peninsula Waste Water Services.

“We are pleased to welcome Peninsula Waste Water Services to the CCS family,” said David Mattinson, President of HAZCO Environmental Services. “CCS and HAZCO have a strong reputation for customer service and are recognized as industry leaders in waste management solutions for the environmental and energy services sectors. Our complementary business operations and similar cultures made this acquisition a natural fit.”

PWWS currently has operations in Prince Rupert, B.C. and Victoria, B.C.

About PWWS

Peninsula Waste Water Services (PWWS) services the marine and environmental industry providing waste management services to cruise lines, ship yards, Canadian Coast Guard and other Federal agencies. PWWS' services include; treatment and disposal of bilge water, contaminated water, oily water, fuel oil, and sludge, disposal of regulated and hazardous wastes, and materials recycling. PWWS has a waste water treatment facility located in Victoria, BC and operations in Prince Rupert, B.C.

About HAZCO

HAZCO is a leading provider of environmental and decommissioning solutions. HAZCO's comprehensive services are backed by our strong corporate infrastructure, dedicated personnel, extensive project experience and our specialized equipment assets. HAZCO's commitment to safety and our track record for the professional and compliant operation of our facilities make us a preferred contractor and service provider to major corporations and government agencies. HAZCO provides innovative and effective solutions to your environmental and decommissioning challenges.

About CCS Corporation

CCS Corporation is a recognized industry leader providing integrated, environmentally responsible solutions in Canada and the U.S. Headquartered in Calgary, AB, CCS has almost 3,000 employees and provides a diverse number of services across four divisions. CCS Midstream Services provides oilfield waste treatment, recovery and disposal (TRD) through a network of facilities across Western Canada and in the United States. This includes TRD facilities, engineered landfills and disposal caverns. CCS Energy Marketing provides crude oil and condensate marketing services. HAZCO Environmental Services offers integrated remediation, waste management, NORM management and decommissioning solutions throughout Canada. Concord Well Servicing manages well completions, workovers and abandonments with a fleet of 143 service rigs. Additional integrated services include regulatory compliance expertise, inactive well management, well and pipeline abandonments, oilfield equipment rental, metals recycling and geotechnical and environmental drilling.
