Plant Biography	<ul style="list-style-type: none"> - Covered 300m³ heated solids pad - Tank farm to accommodate oil, water, muds, emulsion - Top pad for washing equipment and flushing - Indoor wash bay accommodating trucks (including pumps & trailers) - Tank wash - 2 risers, with Micromotion - GCS Tank
Sweet or sour service	Sour service
Plant Biography	The original plant built in 1985 included a land farm and a separate waste component. The landfarm and old waste component have been decommissioned. In 2002 the plant was upgraded with a new waste side including a mud shaker, a new tankwash building, a new Liberty Boiler, and a new riser building with Micromotion meters.
